Why Software Development?

The world needs software developers to build **the future**

Bundesagentur für Arbeit

Average monthly income for Software Developers in Berlin, Germany according to Bundesagentur für Arbeit.

4.870 €
bottom 25%

**6.003 €**
median

> 6.750 €
top 25%

Why iOS Development?

More money

💰

iOS Developers are better-paid among other Software Developers. According to StackOverflow mobile developers make $83,530/y in Germany compared with only $68,537/y for frontend developers.

Better technology

👨‍💻

iOS Developers work with Apple tools and ecosystem (compare Apple iPhone and MacBooks with Android, or Windows)

Easier to learn

😌

iOS Development is easier and faster to learn than Web Development.

Our team ⚡

You're in expert's hands

Our teachers worked at the biggest companies in Germany and Europe.

Shemen
Senior App Developer
6+ years of experience

Philip
Senior iOS Developer
7+ years of experience

Tim
Senior iOS Developer
7+ years of experience

What are you going to **build?**

Top-notch production ready apps. We use the latest industry technologies like SwiftUI and learn to build apps the way big guys do it.

Computer Science 🧬

In this foundational module we get you a solid foundation for your Software Development career. We learn about computers work and how programming languages were created and evolved and how it affects what we do today.

Operating Systems

RAM / CPU

Assembly

Multithreading

Display and Colors

iOS Development ✨

We learn all that has to do with native iOS Development and all the theory and practice behind it.

The Swift Programming Language

Data Structures, O(n)

Design Patterns

Networking, REST APIs

Architectures / MVVM-C

UIKit & SwiftUI 🙌

Together we build a many apps with the most widely used framework in iOS Development today. We learn the latest Apple UI framework, which just starting to be used by the biggest tech companies.

"It didn't feel like a university lecture"

The course helped in understanding what to expect as I move forward in my career. It helped me build the necessary skills and mostly importantly build confidence in my own ability as a junior dev.

Ayesha Shaikh   Junior iOS Developer

Advanced iOS 👩‍🔬

Together we learn how to build top-notch iOS apps using the classical and evergreen principles of Software Development.

SOLID / Clean Code

Dependency Injection

Snapshot Testing & TDD

Clean Architecture

Reactive Programming

Team Work 🤝

You never work alone! Let's learn how to do it well. You learn about the most common ways tech companies manage their software teams.

Project Management

Agile & Scrum

Git, GitHub

CI/CD

Career Development 👨‍🎓
